

- Course:** Electric Scissors with Electric drive Technical Training
- Duration:** 1 day
- Level:** Student must have basic knowledge about access equipment, electric and hydraulic systems of scissor lifts. Basic PC skills are necessary.
- Course includes:** Lunch, workbook, clipboard, notepad, pen, a USB-stick containing training files, manuals, charger info, instruction video's etc.
- Student must bring:** Safety shoes, clothes fit for hands-on training, PC based Laptop(when available).

**Sinoboom Models covered in the course:**

- Metric names:** 0407SE, 0407SE-1, 0607SE, 0608SE, 0608ME, 0608E, 0808E, 0612E, 0812E, 1012E, 1212E, 1412EP, 1414E, 1414EP
- Imperial Names:** 1330SE, 1530SE, 1932SE, 1930SE, 1932ME, 2132E, 2732E, 2146E, 2746E, 3346E, 4047E, 4647EP, 4655E, 4655EP

**Course delivery:**

During the course we spend more time at the machine than in the classroom: it is proven that students retain more knowledge by seeing and doing. Tasks are given to the student so they can learn and discover the machines on their own. A certificate of attendance will be send after completion of the course program.

**Course program:**

- ✓ Machine Walkaround
- ✓ Component Identification
- ✓ Machine operation
- ✓ How does it work: functionality, charger, normal use, operator errors etc.
- ✓ Maintenance topics
- ✓ Electric and hydraulic schematic reading and exercises
- ✓ Display menu navigation
- ✓ Machine configuring, calibration, verification
- ✓ Exercises and trouble shooting events
- ✓ PC software installation and training
